Water Main Replacement Project

Project Duration:
Nov. 2013 to April 2014

Construction Value:
\$1.2 Million

CM / Inspection:
ICM Group, Inc.

Designer:
Citrus Height Water District

Contractor:
Martin General Engineering

PROJECT OVERVIEW

The project consisted of the installation of 12, 8 and 6 inch C900 and ductile iron pipe water main, hydrants, ARV's and new services. Work included commissioning of 3,500 feet of new mainline and 75 residential services, mainline cross connections and abandonment of existing pipelines, and a 50 foot boring to pass below a concrete lined storm drain canal.

SERVICES PROVIDED

ICM Group, Inc. provided inspection services for Citrus Heights Water District, for the installation of all water mains and appurtenances. Services included inspection of construction materials and methods, chlorination and pressure testing, coordination and updates to CHWD's construction manager and review of change orders and progress payments.
