Anderson Dragline

### PROJECT OVERVIEW

The Manteca WQCF Phase III, Industrial Pipeline Project, Eckert Pond is a 6 million gallon lined industrial wastewater storage pond located next to the existing wastewater treatment plant. This project consisted of the construction and installation of a pumping station, mechanical aeration equipment, raising of pond levees for an existing secondary effluent storage pond, underground piping, valves, vaults and electrical.

### SERVICES PROVIDED

ICM provided construction management, inspection, and document control services. Our services included inspection of construction materials and methods, monthly updates for City managers, change order review and processing, claims mitigation, processing RFIs and submittals, and progress payments.
