

Delta Diablo Pump Station Facilities Repair Project

Project Data

Owner:
Delta Diablo Sanitation District

Project Type:
Pump Station

Project Duration:
2019 – 2021

Construction Value:
\$10 Million

CM / Inspection:
ICM Group, Inc.

Designer:
Schaaf & Wheeler

Contractor:
W.M. Lyles Co.

PROJECT OVERVIEW

The Project consisted of improvements at Antioch, Bridgehead, Pittsburg, and Shore Acres Pump Stations and the Broadway Diversion Facility. Construction included replacement of part and upgrades. Critical work included bypass pumping, electrical and instrumentation improvements, and changes to equipment, piping, gates, and valves.

SERVICES PROVIDED

ICM Group provided Construction Management and Inspection for this project. Services included the inspection and testing of construction materials and methods, trench safety and confined space entry, monthly updates for District managers; and processing RFIs, submittals, and progress payments. ICM Group coordinated with District Engineering personnel for change order review and execution, claims mitigation, certified payroll, and Final Payment.
