

Construction Management and Inspection

Manteca Family Entertainment Zone Phase 1 Project

Project Data

Owner:
City of Manteca

Project Type:
Trunk Sewer

Project Duration:
Aug 2016 – Aug 2017

Construction Value:
\$8.7 Million

Inspection:
ICM Group, Inc.

Designer:
NV5

Contractor:
Knife River

PROJECT OVERVIEW

The Project consisted of completing a one-mile extension of the existing 48" trunk sewer by means of microtunneling, including 315 linear-foot of 78-inch casing crossing State Route 120. The remaining 2,500 linear-feet from Daniels Street to the WQCF was installed by open-cut methods.

SERVICES PROVIDED

ICM Group, Inc. provided Construction Inspection and Management for the duration of the project. Services included the inspection & testing of construction materials & methods, trench safety and confined space entry. ICM Group coordinated with City Engineering & Construction personnel for change order review and execution, claims mitigation, processing submittals and RFIs, Certified Payroll, and Final Payment.
