

Bohemian Village Water Main Replacement Sacramento Suburban Water District

PROJECT OVERVIEW

ICM Group, Inc. provided inspection services for the construction of 2 miles of water main. This project consisted of 8 to 16 inch ductile iron main line construction down the center of Marconi Ave. The project encountered extensive underground interferences. Inspection was performed on the pipe installation, lateral tie ins, bedding and backfill, shoring, and traffic control.

Area 58 Water Main Replacement Sacramento Suburban Water District

PROJECT OVERVIEW

ICM Group, Inc. provided inspection services for the construction of 2 miles of water main. This project consisted of 8 to 12 inch ductile iron main line construction down Howe Avenue and El Camino Road. The project encountered extensive underground interferences. Inspection was performed on the pipe installation, lateral tie ins, bedding and backfill, shoring, and traffic control.
